wtc7

1. An ongoing KBOO special

broadcasting forensic evidence that challenges the myth of 9/11.

WTC7 examines how these events have been conformed to flatter the American imagination and to justify pre-emptive war, suspension of civil liberties and the flaunting of international law.

KBOO's own archives and ongoing recordings of celebrity speakers and community forums are the core. (See *911 Election Fraud and Global Warming* heading in Public Affairs and Commentary page of KBOO's website.).

WTC7 will bring listeners full-length and pre-edited material from public seminars, colloquia, workshops, forums and hearings confronting the lies served the American public by 'embedded' US media.

Topics? The program covers reality-making as national agenda, the installation of a permanent government whose purpose is permanent war and secrecy in the guise of a wall of fear.

The program will include short segments, KBOO generated and audio ripped from other sources, with dialog and commentary by the co-hosts and, most importantly with the no-holds-barred call-in action. It's programming that can only happen late at night during the uncensored hours.

2. KBOO should air this program

because nobody else is doing anything like it. There is NO ONGOING BROADCAST ANYWHERE spotlighting the Coup of the 21st Century.

We believe listeners will talk about **wtc7** with others and we will see a consequent up-tick in membership.

This kind of programming is in line with KBOO's charter mandating that we air underrepresented points of view.

3. With the wealth of audio and textual

material on the web, plus private libraries maintained locally by Richard Frager, David Morrison and KBOO's Kurt Liebezeit among others, we believe we will never be anything close to short of material, fresh or archival. Example of fresh stuff: Jim Walters is back in New York City for December 7th this year to publicize both the "regular" and the **NEW** Pearl Harbor—as Project for a New American Century has dubbed it.

We also have a husband and wife team in pdx911truthalliance (her name is Ferne, and husband

"Bill Coones" <rcoones102@msn.com>), she English, he a Yank, who divide their time approximately a month, a month on each side of the pond.

Every government in the world knows that 911 was a flagrant inside job for purposes of fomenting war. Why have EC governments not SAID anything?

According to Bill, Ferne and their UK / European counterparts, there is some very peculiar imperial coercion in process that forces national governments in Europe to surrender sovereignty under false pretenses and through **bribery** and personal **blackmail**.

Ferne has firm connections in a growing political party both in England AND in the European Community parliament that is Euro skeptic for the same kinds of reasons that many Americans resist the tightening noose of homeland security dictatorship.

4. Resources are similar to those used for a Radiozine program like *People Rise Up* blended with *Voices From The Edge*, a bit like Daniel Fleassas' Fri evening program.

Although this presents itself as an entertainment program ("pure speculation, if you know what I mean"), it will be lost on nobody that ALL the people hosting and producing for this program are seasoned KBOO News and Public Affairs people who have collectively smelled an epic, despotic rat.

5. Chris and Glen will share engineering (AND being responsible for BEING THERE reliably

at 3-5am on a weekday morning). Doug, Stephanie and others from time to time (Abe Proctor, Per Fagering, Eduardo Delanderos-Tierre—edited segments from their usual programming where it supports the *wtc7* agenda) will pre-produce and write reader pieces and "talking points."

Wtc7 will draw extensively on the audio/video library of members of the portland911truth alliance.

Alex Ansary "OutSide the Box" and Courtney Scott of "Mad As Hell TV" on Portland cable access will be generating rippable material on an ongoing basis as well.

6. Chris and Glen typically train others in the areas we will focus on in this program, as do Stephanie and Doug in their areas.

7. Glen and Chris between them have sufficient skills to engineer this program, whether done entirely from air room or in combination with Production One or Studio Two.

8. We four will all contribute to information provided for the Listeners Guide. Glen will take primary responsibility for co-ordination and meeting deadlines for the Guide.

9. We will be doing publicity locally through not only indymedia and craigslist, but also

with visible presence for each major anti-war, anti-fascist civic action.

We anticipate substantial interest on the web in part because there has been regular 911 audio programming on the internet off and on. There is no regular established, consistent coverage of these issues on the web at this time, however.

We will be approaching Jim Walters to co-operate with his European and East Coast communications projects.

10. No moneys. Personal libraries of pdx911truthalliance members and materials from identified expert others such as Chihiro's professional radio colleague, Bill Moore, "sandpiper", will be used to maximum advantage.

11. All members of the production group have long ago completed volunteer orientation, Production 1 and 2 classes and completed programmer's contract and press pass requirements. Chris and Glen have air room qualification.

Depending how extensively Ferne Coones European perspective and connections are pursued on this program, it may soon be appropriate for her to

undertake KBOO basic training, including production, as well.

12. I believe that the contributions, experience and related activities of all four KBOO News and Public Affairs people on the *wtc7 production team* are well known to members of the Programming Committee.

Glen, in particular, has played a major role in mounting 911 and voter fraud information forums around the city; and Stephanie has done several related reports for KBOO news programs.

Although Per Fagering is not formally part of the *wtc7 production group*, we will draw on material/interviews etc generated by him—such as the interview with JFK/911 expert Don Paul coming up next week. Per is a semi-regular member of the pdx911truthalliance, as is Kurt Liebezeit.

If we were to present a pilot program it would either be the full two hours of lecture with question and answer of Morgan Reynolds from September 10th, of which KBOO was co-sponsor, or the full length proceedings of the JFK-911 conference coming up Sunday afternoon November 20th, poster attached.

I see a skein of conspiracies that have benefited a tiny superelite within the U.S. over at least the past 40 years--from "Dallas" to "9/11" and beyond. These conspiracies' endgame, I believe, is a "New World Order"

42 YEARS OF STATE-SPONSORED TERRORISM
